

Mission Statement

Lyons Languages is a small independent language school offering quality English language courses to juniors and adults. We pride ourselves on ensuring personal attention to each and every student.

Our mission is to provide high quality English language and cultural education programmes to international students visiting from abroad and to those living locally. Whether preparing for specific examinations or aiming to improve general English, we endeavour to teach students effective and practical communication skills in a supportive and welcoming environment.

Our core values as a school are:

- to ensure quality provision of language tuition and further the reputation of English language provision in the UK
- to promote tolerance and respect and to be ethical, responsible and professional in responding to the needs of our students and staff
- to encourage equality, diversity and inclusion among everyone who works and studies with us
- through our Study Holiday programmes, to promote British culture, arts and heritage and enhance cross-cultural understanding, collaboration and global communication.
- to ensure our financial viability to continue to develop and improve the programmes we offer.

Rosalind and Siobhan Lyons, Directors
